Reliance Trust opens new offices in Luxembourg

Reliance Trust is pleased to announce the opening of its office in Luxembourg on July 5, 2016.

Like Switzerland, Luxembourg is a stable and multicultural country with a solid financial infrastructure. The country benefits from a flexible and attractive legal, regulatory and tax regime and has extensive Double Tax Treaties (DTT) and Bilateral Investments Treaties (BIT). This provides essential protection to foreign investors and facilitates cross-border transactions and make Luxembourg an optimal jurisdiction.

By opening an office in Luxembourg, Reliance Trust positions itself to better serve clients and business partners. The new office will benefit from our expertise in serving corporate and private clients (including the Sociétés Commandites) and will in the future extend the range of services provided to a.o. closed-end fund administration. Overall the new office contributes to the further organic growth of Reliance Trust in onshore jurisdictions.

The strategic decision to provide services in Luxembourg has been strongly supported by many clients and business relations. They have expressed a clear desire to work with a professional trust/fiduciary company with a clear long-term commitment to high-quality services.

Reliance Trust has the following core business commitments:

- Independence: No private equity / financial institution / law firm ownership
- No conflict of interests: No legal/tax opinions, audit and wealth management services
- Proactive and client-oriented team
- Long-term relations
- High compliance standards
- Preservation of confidentiality
- Protection of reputation for clients and intermediaries

We are excited to develop our strategic offering and look forward to serving existing and future clients in Luxembourg. For further details please view our website www.reliancetrustgroup.com which details our full range of services.

Annemarie de Wit - Krul and Daniel Hollowell will be responsible for the new office and will work together with the local team. If you have any question please contact them.

Sincerely,

Reliance Trust
